NATIONAL REGISTRY
EMT-PARAMEDIC RE-REGISTRATION WORKSHEET

I. Refresher Course Content (48 hours)

The refresher course can be completed through two different options:

1. Traditional Refresher Course
   Completion of a 48 hour approved DOT National Standard Paramedic Refresher or CECBEMS approved refresher course.
2. Continuing education topical hours
   EMT refresher may be completed by continuing education and must include both mandatory and flexible content.

	Date Completed	Number of Hours Required	Number of Hours Received
TRADITIONAL REFRESHER COURSE		**48**	
CONTINUING EDUCATION TOPIC HOURS			
MANDATORY CORE CONTENT • You must ensure that you have received education covering all topics within the Mandatory Core Content along with specified hours for the sections below. You may obtain these topics through a variey of formats, including lectures, simulated skills presentations, case or run review discussions, conference attendance or via a formal state-approved course. Distributive education may be used as a part of the Mandatory or Flexible Core Content for up to 10 hours.			
Airway, Breathing and Cardiology (List classes below) • Provide ventilatory support for a patient • Attempt to resuscitate a patient in cardiac arrest • Provide care to a patient experiencing cardiovascular compromise • Provide post-resuscitation care to a cardiac arrest patient			
TOTAL		**8**	
Medical Emergencies (List classes below) • Assess and provide care to a patient experiencing an allergic reaction • Assess a patient with possible overdose • Assess and provide care to a near-drowning patient			
TOTAL		**3**	

Trauma (List classes below)

- Perform a rapid trauma assessment
- Assess a patient with a head injury
- Assess and provide care to a patient with suspected spinal cord injury
- Provide care to a patient with a chest injury
- Provide care to a patient with an open abdominal injury
- Provide care to a patient with shock/hypoperfusion

TOTAL		**5**	

Obstetrics and Pediatrics (List classes below)

- Assess and provide care to an infant or child with cardiac arrest
- Assess and provide care to an infant or child with respiratory distress
- Assess and provide care to an infant or child with shock/hypoperfusion
- Assess and provide care to an infant or child with trauma

TOTAL		**8**	

FLEXIBLE CORE CONTENT

- You must ensure that you have received education covering all topics within the Flexible Core Content. You are not required to receive education on all topics within that division. You must meet the number of hours that are listed for that division. You may obtain these topics in the same method as listed for the Mandatory Core section. You must complete the requirements of both Mandatory Core and Flexible Core Content to fulfill the refresher requirements

Airway, Breathing and Cardiology (List classes below)

- Assess and provide care for respiratory distress in an adult patient
- Use oxygen delivery system components
- Perform techniques to assure a patent airway
